

Thursday Clubs

Dear Parents,

This year clubs will be organized a bit differently. Each club day will have a combination of Gardening/Nature, Tinkering, and Creative Art experiences based on a particular focus or theme. This will help to ensure that we can get outside to the Exploring Place on any good-weather Thursdays!

Gardening/Nature

Being outside in nature boasts a wide variety of benefits. Children will help to plant and maintain the Outdoor Exploring Place gardens and participate in nature-related projects.

Tinkering

Tinkering is a movement driven by STEM- Science, Technology Engineering and Mathematics. Tinkering is hands-on exploration allowing your little scientist the opportunity to interact with tools and materials while taking things apart and making new creations.

Yoga

Yoga is a fun, engaging way to get kids moving! After lunch and exploration time, children will participate in a 40 minute yoga session led by a certified yoga instructor.

Creative Art

Art allows children the opportunity to express their thinking through a variety of mediums, like clay, paint, and sculpture.
